

## **Internship Opportunity (unpaid)**

**Project Title:** Support for the Teen Success Program

**Program Details:** The purpose of Teen Success is to help teen mothers maintain their current family size until they complete their high school education and feel ready for another child. We work toward this goal by providing a weekly supportive environment for teens ages 14-20 years who are pregnant or currently parenting. Participants meet to:

- Learn information, skills, and behaviors to prevent an additional pregnancy
- Improve ability to cope with the challenges of parenthood and adolescence
- Develop skills to build better relationships
- Receive encouragement to successfully finish their education

**Intern Requirements/Skills to Gain:** The selected intern will provide direct assistance to the Planned Parenthood Education Department and Teen Success Facilitators by:

- Attending Teen Success sessions (held every Tuesday from 5-7pm at the Sorenson Unity Center, 900 W 1300 S) and implement educational curriculums
- Preparing food and assisting with room set up and clean up
- Assisting with program evaluation, review of existing data and entering new data as needed
- Other tasks as determined necessary by the Education Department leadership and Teen Success Facilitators
- Complete required training with Planned Parenthood Association of Utah

This is an unpaid internship. The selected intern will have to complete all volunteer requirements associated with Planned Parenthood Association of Utah. Up to 10 hours per week expected, and flexible and dependent upon the student's work pace and project requirements.

**Prerequisites/Preferences:**

- Experience working with confidential information
- Ability to effectively communicate (written, visual and verbal)
- Strong organization skills; detail-oriented
- Ability to work independently
- Cooking/food safety

**If interested, please send a resume and cover letter to [engagementintern@ppau.org](mailto:engagementintern@ppau.org)  
Position will close when filled.**
