Employer: Utah Health and Human Rights (nonprofit, unpaid)

Title: Data Auditing Intern

Utah Health and Human Rights (UHHR) is a direct service and advocacy agency that promotes the health, dignity, and self-sufficiency of refugees, immigrants, asylum seekers, and asylees who have endured severe human rights abuses, including torture and severe war-related trauma. UHHR is guided by profound respect for the dignity and resiliency of our clients.

The Data Auditing Intern will work specifically on the auditing of UHHR data; the Intern will oversee the process of transferring and updating information into a new data management system. The Intern will work with UHHR staff to create and implement a reasonable rollout timeline for the new data tracking system. Because UHHR is working with federal grant monies to audit and transfer their current data tracking system, the Intern will also be responsible for tracking and reporting on processes and outcomes relevant to the project and within the guidelines specified in the grant requirements. Ideally, the Intern will have experience working with Salesforce.

Hours, begin and end date, and holiday schedule will be agreed upon with direct supervisor. The Intern MUST seek internship course credit through the University of Utah in order to participate in the internship. For more information, contact the Internship Coordinator (Dominique Blanc, dominique.blanc@csbs.utah.edu).
