Larger majority aspires to some sort of intimate relationship,” he writes. National surveys suggest Americans contact with the conflict -- an area, she said, of much-needed research. Professor Nicholas Wolfinger of Family & Human Development studies the long-term consequences of the Vietnam War on our society and their study effects of Vietnam War on the quality of relationships. Professor Wolfinger said, “The war has a lasting impact on relationships, and understanding this impact is crucial for maintaining healthy relationships.”

He further explained that the war has affected the quality of relationships in various ways, such as the war’s impact on communication, trust, and sharing emotions. He emphasized the importance of understanding these effects, especially in the context of diverse populations, which will help in providing better support for those affected. "Even if Washington and Moscow lack a formal alliance, there is an informal multilateral," even if Washington and Moscow lack a formal alliance, there is an informal multilateral, he explained. "This informal multilateral may not be able to make the effort seem more effective, but it can provide a platform for coordination and cooperation.

CSBS Psychology Diversity Committee

Shane Macfarlan, Assistant Professor of Anthropology, will present "America’s Black Round Table: Disparities and the Need for More Diversity in the Social Sciences." Shane Macfarlan is a renowned scholar in the field of anthropology and has conducted extensive research on race and ethnicity in the United States. His work has been instrumental in understanding the challenges faced by black communities. The presentation will focus on the disparities in the social sciences and the need for more diversity in the field. Shane Macfarlan will provide insights into the current state of the social sciences and the steps that can be taken to address this issue.

CSBS Faculty and Staff Awards 2021

Congratulations to Assistant Professor Jackie Chen who was awarded the Faculty and Staff Awards Reception. Jackie has made significant contributions to the university and the field of psychology. She is an accomplished scholar and has published in some of the very best journals. Her work has been instrumental in advancing our understanding of human aging and cognitive development. Jackie is a dedicated educator and has a deep commitment to student success. She is an inspiration to us all. Thank you, Jackie, for your outstanding contributions to the university.

CSBS Virtual Student Research Day

Wednesday, April 28th, 2021

Both graduate and undergraduate students in the college will be given the opportunity to showcase original research projects using virtual poster presentations. Students, faculty, and staff are encouraged to attend and learn more about the latest research being conducted in the college.
