**FACES OF CSBS**

Meet Psychology alumnus Christopher Fagundes. Working in the area of stress and health, Dr. Fagundes uses theories and methods from personality, clinical/health, and developmental psychology to understand components that may help explain the etiology and impact diseases of older adulthood such as cardiovascular disease, cancer, and cognitive decline. He has authored more than 95 articles and book chapters on stress, health, and disease. He has received several grants to support his research from the National Institute of Mental Health and has also received the American Psychological Association's Distinguished Scholarly Contributions to Knowledge Award, the Southern Regional Psychological Association's Outstanding Early Career Award, and the Academy of Behavioral Medicine Research's Early Career Research Achievement Award. He is also an elected member of the American Academy of Arts and Sciences. His research focuses on stress and adaptation of older adults, with a specific emphasis on the effects of inversions in Salt Lake City. Last year, he interned on Congressman Chris Stewart. Workman spends her weekends local campaigns for the 2018 midterms and worked at the office of kaitlyn workman, a dual major in political and clinical health psychology post-docs.
