Wyatt Hudgens is a third-year political science and geography student. He wrote an article on winter inversion and how it relates to the COVID-19 pandemic and outdoor classrooms. His article was featured in the Deseret News.

He also presented at the Geog. Colloquium: Michael Desjardins, Johns Hopkins University, pointing out David Strayer, a psychology professor who has conducted research into how factors outside of a debate — things like how factors outside of a debate — things like weather, for example — can lead to a candidate’s bumps or dips in polls.

Scott W. Reed is an assistant Utah Attorney General, assigned to the Division of Criminal Justice, Commerce, and Child Protection, as an advisor. In his twenty-five years in the Utah Attorney General’s Office, Mr. Reed has served as the Utah Drug Enforcement (SANE) grant project. First admitted to practice in 1985 and 1986 in Utah and Nevada, respectively, Mr. Reed has passed the bar exam in the states of Utah, Washington and Nevada. Mr. Reed has been an attorney throughout his 35 years of practice. He later went on to earn a law degree from the University of Oregon, then an SJD from Harvard, and is now a leading expert on the “Law of the River” for the Colorado River.

Congratulations to Jason Robison on his recently published book: Vision and Place: John Wesley Powell and Reimagining the Colorado River. He has conducted research into the “Law of the River” for the Colorado River.
